Panel Series

The image features a large wall of foamed ceramic texture panels, each with a repeating pattern of rounded rectangular shapes. The panels are arranged in a grid and have a warm, golden-brown color. At the bottom of the image, there is a row of black metal chairs and small round tables, suggesting a cafe or dining area. The text 'FOAMED CERAMIC TEXTURE PANEL' is overlaid in a large, white, serif font across the middle of the image.

*FOAMED CERAMIC
TEXTURE PANEL*

Product Description

The foamed ceramic texture panel is foamed at high temperatures, and its porous and lightweight material structure gives it lightness and strength. This material has many unique advantages. Its unique texture and texture can inject creative artistic charm into various interior decoration scenes such as home spaces, commercial offices, and public places. At the same time, they are lightweight and easy to cut, making installation simple and convenient, saving time and labor costs. The foamed ceramic texture panel is also waterproof, moisture-proof, mildew-proof, and anti-bacterial, making it suitable for humid environments and humidity-sensitive construction projects.

*INSTALLATION
GUIDE*

1. Level and color up the wall horizontally.
2. Put the starter strip on the bottom of the wall.
3. Install the first panel from the left bottom.
4. Lay the panels down to up, left to right, fix the panels with screws on the joints.
5. Check if the panels are horizontal with a level during installation.
6. Keep on installing the panels, corners and top lines.
7. Cut the panel with a saw if necessary.
8. Drill the screw through the center of the joints to the wall.
9. Upper panel interlocks with lower panel, screws are invisible.

COMPANY PROFILE

Company Profile

Founded in 2004, STARMAX is a company dedicated to the procurement of new architectural materials. Its service targets include designers, architects, construction companies, design companies and other professionals and institutions related to the architectural design industry.

Our products cover various new building materials such as pouring panels, wall panels, components, coatings, etc., with tens of thousands of styles, which can meet the needs of different projects. In order to better serve customers, STARMAX has established long-term cooperative relationships with the world's top suppliers of new building materials. We firmly believe that high-quality and innovative materials can bring more possibilities and creativity to the architectural design industry, and at the same time improve the quality and value of projects.

How We Help Designers

Sifting through endless options online, creating dozens of new accounts, digging through supplier information, running a business while keeping track of the full content of purchased materials...have you ever felt like, it's a hassle more than once?

Every stage of the interior design process will be easier and more efficient when you have an efficient purchasing assistant!

STARMAX is a company dedicated to the procurement of new building materials, serving professional designers.

With our 18 years of sourcing experience and strong supplier background, you can draw inspiration from our vast library of building materials to turn any idea into reality.

We have over 135,000 products from over 1,700 suppliers worldwide.

Get in touch with us, and you will get free building material samples, exclusive material guides, annual building material trend collections and detailed price lists provided by STARMAX. You can choose directly from our wide range of new material options, or provide your ideas and models to our business staff.

- No project style restrictions;
- No need to create an account;
- No extra charge;
- After the order is completed, the shipping fee will be refunded in full;
- Screen multiple suppliers for comparison;
- Help procurement cost control.

In addition, we can also help you obtain first-class FF&E, OS&E procurement solutions. We can provide you with any level of design assistance you may require. We will be an extension of your team, supporting you with budgeting, product consulting, value engineering and procurement.

Whether you are an architect looking for innovative materials, a designer needing a special order, or a supplier of new products for your company, STARMAX can help you find what you need.

Our Team

The STARMAX project team is composed of experienced industry elites, including procurement team, business team and construction new material professionals, who always focus on business and partners' commercial success. Through efficient communication, we understand customer needs, customize innovative, competitive and cost-effective procurement solutions for customers, and supervise production and logistics in a timely manner to ensure that orders are delivered on schedule and projects do not miss the best time.

Our Mission And Vision

STARMAX is committed to providing innovative, environmentally friendly and high-quality new building materials for the architectural design industry, creating more possibilities for customers and creating a better future for society.

PRODUCT STRUCTURE

Product Supply Chain

After years of accumulation and hard work, STARMAX now has a large operation service team and rich experience, providing customers with a full range of integrated services from product development, production, OEM, procurement, agency, import, warehousing, logistics services to sales services .

Therefore, in addition to providing material procurement services, STARMAX also provides customers with one-stop services related to hotel business, including hotel renovation, hotel interior design, hotel product research and development, etc.
